

N100 Financial Intelligence Platform

Technical Report Template

Executive Summary

This template provides a structure for documenting the N100 Financial Intelligence Platform, including architecture, ETL pipeline, analytics engine, reporting, testing, and deployment.

Section	Contents
Project Overview	Objectives, scope, tech stack
Architecture	Modules and data flow
Data Sources	Raw and supporting datasets
ETL Pipeline	Loading, normalization, validation
Analytics	Financial ratios, NLP, cash flow
Reporting	Tear sheets and portfolio summary
Database	SQLite schema
Testing	Unit and integration tests
Deployment	Execution scripts and packaging
Future Work	Enhancements and roadmap
